What Is an Annuity?

An annuity is a contract between you and an insurance company designed to help grow and protect your money over time. The BreakThrough Annuity Account is a specific type of annuity called a Multi Year Guarantee Annuity (MYGA) — with similarities to certificates of deposit (CD), but it also has important differences. See chart on page 4.

A MYGA offers:

- A guaranteed fixed interest rate for a set period of time, or Interest Guarantee Period
- Protection of your principal when held for the duration of the Interest Guarantee Period*
- Generally higher guaranteed interest rates than CDs**
- Death benefit options and guaranteed income features not typically available with a CD

MYGAs also include surrender charges and market value adjustments (MVAs) that will be applied if you surrender the contract before the end of the Interest Guarantee Period, or withdraw more than the penalty-free permitted withdrawal amount.*

Understanding the 59 ½ Rule For Non-Qualified Annuities

Most non-qualified annuities defer taxes on growth until withdrawal. While that can be valuable for retirement savings, it comes with a restriction: withdrawals of gains before age 59½ may trigger a 10% IRS early withdrawal penalty, in addition to ordinary income taxes.

The BreakThrough Annuity Account is structured differently.

- During the accumulation phase, interest is taxed annually as it is earned***
- Gains on withdrawals prior to age 59½ are not subject to the IRS 10% early withdrawal penalty****
- Flexible beneficiary structure allows any beneficiary the option to continue their share of the original Contract under the terms of the Contract or to elect their portion of a payout

This makes the BreakThrough Annuity Account a more flexible option for after-tax, non-qualified funds that are not intended solely for retirement.

*A surrender or partial surrender before the end of an Interest Guarantee Period may be subject to a surrender charge and a negative Market Value Adjustment (MVA), either of which may reduce the Contract's Cash Surrender Value to an amount less than the premium paid. In no event would the Cash Surrender Value be less than the Guaranteed Minimum Cash Surrender Value. The Guaranteed Minimum Cash Surrender Value represents the minimum amount required to be paid under the Contract by the NAIC Standard Nonforfeiture Law for Individual Deferred Annuities at surrender, annuitization or death of the Contract owner. The Cash Surrender Value is the Accumulation Value less surrender charges and taxes payable but not previously deducted plus any MVA. The MVA may be positive or negative.

**CDs and MYGAs are different products serving different financial objectives. CDs are bank or credit union deposit products generally insured by the FDIC or NCUA up to applicable limits. MYGAs are insurance products backed by the claims-paying ability of the issuing insurance company and are not FDIC or NCUA insured. Consumers should review the features of each product and consult a financial professional to determine which best aligns with their financial goals.

***BreakThrough Annuity Account MYGA does not provide tax-deferred accumulation during the accumulation phase. Interest credited or other taxable amounts generated during the accumulation phase may be subject to current federal, state and/or local tax in the year earned. If the Contract is annuitized, the portion of each Annuity Payment attributable to your Accumulation Value on the date Annuity Payments begin will be considered a nontaxable return of your investment in the Contract. The portion of each Annuity Payment attributable to interest credited under the Contract after the date Annuity Payments begin will be considered taxable income. You should consult a qualified tax advisor prior to purchasing BreakThrough Annuity Account MYGA.

****Tax treatment is based on Revol One Financial's current understanding of tax law and the structure of the Contract. There is no IRS private letter ruling stating that the BreakThrough Annuity Account is not subject to the IRS 10% early withdrawal penalty. You should consult a qualified tax advisor prior to purchasing BreakThrough Annuity Account MYGA.

A New Way to Experience Guaranteed Growth

Not every dollar you save is meant to sit untouched until retirement.

Some money is for life along the way— a future purchase, an unexpected opportunity, or simply the peace of mind that comes from knowing your money is growing on your terms. This is the money most people keep in CDs: after- tax, non-qualified dollars that you want working harder without being locked away for retirement.

If you've been using CDs to grow your non-qualified funds, you're not alone. They're familiar. But they often come with lower guaranteed rates than a MYGA.

The BreakThrough Annuity Account is built to change the equation.

It is a type of Multi Year Guarantee Annuity (MYGA) contract specifically designed for non-qualified funds - money you've already paid taxes on that you want growing with purpose and flexibility. It is designed for individuals who want higher guaranteed rates than what may be available with many CDs, while maintaining flexibility for life beyond retirement-only planning.

Here's what makes it different:

- **Generally higher guaranteed fixed interest rates** than CDs*
- **Principal Protection** when held for the duration of an Interest Guarantee Period**
- **Flexible beneficiary options** — name multiple beneficiaries, each of whom can choose to continue their share of the Contract or receive their portion of a death benefit payout upon the owner's death
- **No IRS 10% early withdrawal penalty** on gains prior to age 59½.***

The result:

Stronger, predictable growth on your after-tax, non-qualified funds — with the flexibility to actually use your money when life calls for it.

**For contracts with Joint Owners, the Death Benefit rider is triggered after the last surviving owner's death, the Terminal Illness Rider is triggered when the last surviving owner is diagnosed with a terminal illness, and the Nursing Home Rider is triggered upon first instance of an owner being confined to a nursing home. Per company guidelines, Joint Owners must be legally married. If the owner is a trust, the Death Benefit rider is triggered after the last surviving annuitant's death, the Terminal Illness Rider is triggered when the last surviving annuitant is diagnosed with a terminal illness, and the Nursing Home Rider is triggered upon first instance of an annuitant being confined to a nursing home. Per company guidelines, Joint Annuitants must be legally married.

Benefits of the BreakThrough Annuity Account

1 Guaranteed Rates

Your fixed interest rate is guaranteed for the period you select: 3, 5 or 7 years. Choose the Interest Guarantee Period that fits into your personal financial plan. (Interest rates are annual effective rates and are compounded daily.)

2 Death Benefit

If you pass away while the Contract is in force, your beneficiaries receive a death benefit equal to the Accumulation Value (or Guaranteed Minimum Cash Surrender Value, if greater). Surrender Charge and Market Value Adjustments (MVAs) will be waived upon payment of a Death Benefit.*

3 Multiple Beneficiary Flexibility

Multiple beneficiaries may be named. Upon your death (as the Contract Owner) each beneficiary independently chooses how to proceed:

- Receive their portion of a death benefit payout, or
- Continue their share of the Contract as a new owner, subject to the terms of the Contract

This means a single Contract can be divided and carried forward across your surviving family members or other chosen beneficiaries, giving you more flexibility over how your assets are passed on.

4 Guaranteed Lifetime Income Options

Through a process called annuitization,** you have the option to convert your Contract's Cash Surrender Value into a guaranteed stream of income payments (or annuity payments). This can provide a reliable source of income later in life, should you choose it.

5 Nursing Home*[3] and Terminal Illness Riders*[4]

If the unexpected happens and you need Nursing Home care or are diagnosed with a Terminal Illness, these riders let you access your funds without incurring Surrender Charges or MVAs, provided you meet the qualifying terms and conditions. These Riders are automatically included with the base contract.

These features are included in your Contract. There is no separate election required for the core death benefit, beneficiary flexibility and annuitization options.

**For contracts with Joint Owners, the Death Benefit rider is triggered after the last surviving owner's death, the Terminal Illness Rider is triggered when the last surviving owner is diagnosed with a terminal illness, and the Nursing Home Rider is triggered upon first instance of an owner being confined to a nursing home. Per company guidelines, Joint Owners must be legally married. If the owner is a trust, the Death Benefit rider is triggered after the last surviving annuitant's death, the Terminal Illness Rider is triggered when the last surviving annuitant is diagnosed with a terminal illness, and the Nursing Home Rider is triggered upon first instance of an annuitant being confined to a nursing home. Per company guidelines, Joint Annuitants must be legally married.

**Annuitization is subject to surrender charges during the surrender charge period.

Optional Rider for Enhanced Flexibility and Protection

Consider adding the optional Free Partial Surrender Rider to your BreakThrough Annuity Account MYGA. Your guaranteed fixed interest rate will decrease if you select this Rider. Please review the rate sheet for current rates.

Free Partial Surrender Rider

This rider gives you the flexibility to withdraw up to your annual interest earnings potential each year (calculated as your Accumulation Value at the start of the year multiplied by your guaranteed fixed interest rate), without incurring surrender charges or MVA, including any positive MVA. This can be a useful option if you anticipate wanting access to interest income during the life of the Contract.

Surrender Charges and Renewal Options

Surrender Charges

If, before the Interest Guarantee Period ends, you surrender your BreakThrough Annuity Account or take withdrawals in excess of the Free Partial Surrender amount, a surrender charge may apply and reduce the amount you receive.

Surrender Charge Schedule											
Contract Year	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**	**9**	**10**	**11**
3 Year period	8.1%	7.2%	6.3%	0%							
5 Year period	8.1%	7.2%	6.3%	5.4%	4.5%	0%					
7 Year period	8.1%	7.2%	6.3%	5.4%	4.5%	3.6%	2.7%	0%			

A new surrender charge schedule may apply to a renewal. Upon renewal, there are no surrender charges or any MVA during the first 30 days of a subsequent Interest Guarantee Period.

Renewal Options

At the end of each Interest Guarantee Period, you may elect to continue the Contract with:

- A new Interest Guarantee Period equal in duration to your Initial Interest Guarantee Period, with a new guaranteed fixed interest rate. No surrender charges or MVA will apply for the first 30 days of the new Interest Guarantee Period. (This is the default if you do not make an election after your Initial Interest Guarantee Period.)
- A new Interest Guarantee Period that is different than your Initial Interest Guarantee Period, with a new guaranteed fixed interest rate. No surrender charges or MVA will apply for the first 30 days of the new Interest Guarantee Period.
- Daily fixed interest credited at a rate declared annually by us. No surrender charges or MVA will apply. (This is the default if you do not make an election after the second, or any subsequent Interest Guarantee Periods.)

Market Value Adjustments (MVA)

The BreakThrough Annuity Account includes a MVA. The MVA applies only when the surrender charge applies. The MVA could increase or decrease the amount you receive from full or partial surrenders, or your Cash Surrender Value, depending on certain market interest rates. (Please review your Contract for complete details.)

- In general, if interest rates have decreased since the start of the current Interest Guarantee Period, the MVA will be positive. A positive MVA increases the withdrawal amount or your Cash Surrender Value.
- In general, if interest rates have increased since the start of the current Interest Guarantee Period, the MVA will be negative. A negative MVA decreases the withdrawal amount or your Cash Surrender Value.
- The Cash Surrender Value will never be less than the Guaranteed Minimum Cash Surrender Value.

Frequently Asked Questions

Is the BreakThrough Annuity Account an annuity?

Yes. The BreakThrough Annuity Account is a Multi Year Guarantee Annuity (MYGA) issued by an insurance company. That means your interest rate is guaranteed for a set period of time and your principal is protected when the Contract is held according to its terms.* What makes it different is not what it is, but how it is structured and taxed — giving you more flexibility than a traditional non-qualified annuity contract.

Why is there no IRS 10% penalty before age 59½?**

The BreakThrough Annuity Account is structured differently than a traditional non-qualified, tax-deferred annuity and due to this structure, it is not subject to both the benefits and restrictions of annuity taxation, including tax deferral and the early withdrawal penalty.

How is this different from most non-qualified annuities from a tax perspective?***

Most non-qualified annuities offer tax-deferred growth, meaning you don't pay taxes on interest credited until you withdraw It. With the BreakThrough Annuity Account, interest is taxed annually during the accumulation period.

Can beneficiaries continue the Contract?

Yes. You can name multiple beneficiaries. Should you pass away, each beneficiary independently decides how they want to proceed. They may receive a death benefit payout of their portion or continue their share of the Contract as a new owner, subject to the Contract's terms. This flexibility allows a single Contract to be divided and carried forward across your surviving family members or other chosen beneficiaries.

*Subject to a surrender charge and a negative MVA for full or partial surrenders taken during a Interest Guarantee Period which may reduce the Cash Surrender Value to an amount less than the premium paid. In no event would the Cash Surrender Value be less than the Guaranteed Minimum Cash Surrender Value. A positive MVA could also apply which would increase the amount payable at full or partial surrender of your Cash Surrender Value.

**Tax treatment is based on Revol One Financial's current understanding of tax law and the structure of the Contract. There is no IRS private letter ruling stating that the BreakThrough Annuity Account is not subject to the early withdrawal penalty. You should consult a qualified tax advisor prior to purchasing the BreakThrough Annuity Account MYGA.

***BreakThrough Annuity Account MYGA does not provide tax-deferred accumulation during the accumulation phase. Interest credited or other taxable amounts generated during the accumulation phase may be subject to current federal, state and/or local tax in the year earned. If the Contract is annuitized, the portion of each Annuity Payment attributable to your Accumulation Value on the date Annuity Payments begin will be considered a nontaxable return of your investment in the Contract. The portion of each Annuity Payment attributable to interest credited under the Contract after the date Annuity Payments begin will be considered taxable income. You should consult a qualified tax advisor prior to purchasing BreakThrough Annuity Account MYGA.

Frequently Asked Questions

Can withdrawals still be subject to charges?

Yes. While there is no IRS 10% early withdrawal penalty* on gains, surrender charges and a negative MVA may apply if you surrender the Contract before the end of the Interest Guarantee Period or withdraw more than the permitted free withdrawal amount, if applicable. A positive MVA could also apply. Please review the surrender charge schedule on page 7.

Why would someone choose the BreakThrough Annuity Account over a traditional non-qualified, tax-deferred annuity?

This Contract may be a good fit for individuals who:

- Want access to their money before age 59½, without an IRS early withdrawal penalty*
- Prefer the certainty of annual taxation during the accumulation phase**
- Value flexibility in how their assets are passed on to beneficiaries

Can this Contract provide future income?

Yes. The Contract includes annuitization options that allow you to convert your Cash Surrender Value into a guaranteed stream of income payments. This can be a useful feature for long-term income planning down the road.

*Tax treatment is based on Revol One Financial's current understanding of tax law and the structure of the Contract. There is no IRS private letter ruling stating that the BreakThrough Annuity Account is not subject to the early withdrawal penalty. You should consult a qualified tax advisor prior to purchasing the BreakThrough Annuity Account MYGA.

**BreakThrough Annuity Account MYGA does not provide tax-deferred accumulation during the accumulation phase. Interest credited or other taxable amounts generated during the accumulation phase may be subject to current federal, state and/or local tax in the year earned. If the Contract is annuitized, the portion of each Annuity Payment attributable to your Accumulation Value on the date Annuity Payments begin will be considered a nontaxable return of your investment in the Contract. The portion of each Annuity Payment attributable to interest credited under the Contract after the date Annuity Payments begin will be considered taxable income. Important Information

[(1)] **If the Free Partial Surrender Rider is elected, the Free Partial Surrender Amount** is equal to the Accumulation Value at the beginning of the Contract Year multiplied by the guaranteed fixed interest rate, less any prior partial surrenders made during the Contract Year. No Surrender Charges or Market Value Adjustments will be applied for any partial surrenders necessary to meet IRS RMD rules for tax qualified contracts if this rider is selected. If you withdraw an amount more than this Free Partial Surrender Amount, you may be subject to Surrender Charges and MVAs. Withdrawals of taxable amounts are subject to ordinary income tax and may be subject to a 10% federal income tax penalty if taken before age 59½.

[(2)] **The Terminal Illness Rider and Nursing Home Rider** are NOT long-term care insurance nor a substitute for such coverage. Riders may not be available in all states. Please see the contract for more information.

[(3)] **Additional information about the Nursing Home Rider:** First confinement must begin on or after the Issue Date. We must receive the withdrawal request and proof satisfactory to us at our Home Office after the Benefit Eligibility Date and either while the Owner is confined or within 90 days after such confinement. Confinement in a Nursing Home must be prescribed by a Qualified Physician and must be Medically Necessary. The Owner must have been the Owner of the contract continuously since the Issue Date, or a spousal Beneficiary who continued the Contract under the Settlement Options in the Contract. For contracts with Joint Owners or Joint Annuitants, the Nursing Home Rider is activated upon first instance of an owner being confined to a nursing home. State variations may apply. Please read your Contract for details.

[(4)] **Additional information about the Terminal Illness Rider:** A Qualified Physician must certify to the Owner's illness or injury and life expectancy, and that the Owner had not been diagnosed with the terminal condition as of the Issue Date. The Owner must have been the Owner of the contract continuously since the Issue Date or a spousal Beneficiary who continued the Contract under the Settlement Options in the contract. For contracts with Joint Owners or Joint Annuitants, the Terminal Illness Rider is activated when the second owner (or Annuitant) is diagnosed with a terminal illness. State variations may apply. Please read your Contract for details.

CDs and MYGAs are different products serving different financial objectives. CDs are bank or credit union deposit products generally insured by the FDIC or NCUA up to applicable limits.
