Unleash the Power of a Fixed Index Annuity

What is a Fixed Index Annuity (FIA)?

A Fixed Index Annuity (or FIA) provides growth strategies offering fixed-rate returns and indexed interest options with performance-based returns tied to an underlying index, subject to caps and participation rates. When funds are placed into an indexed interest option, funds will grow, in part, based on the performance of the underlying index. Because your money is not directly invested in the market, your principal remains protected, you will not lose money due to stock market performance and interest credited will never dip below zero.

Similar to other FIAs, Enduris 10 Bonus is a long-term contract designed to help achieve future financial milestones. Your funds grow tax deferred, are protected from market downturns and provide you the flexibility to distribute your premium dollars among the fixed interest or available S&P 500® indexed interest options.

Enduris 10 Bonus Helps Accelerate Growth Potential

Jump start retirement planning with a boost from a Premium Bonus

The Enduris 10 Bonus immediately provides a bonus equal to 16%* of your premium, subject to a vesting schedule. As your Accumulation Value increases, the bonus value will also increase, staying at 16%* of your Accumulation Value. This continues until your bonus value is fully vested after 10 years (9 years in California).**

The Enhanced Participation (EPAR) Indexed Interest Options offer additional upside growth potential.

The EPAR Indexed Interest Options offer you the chance to capture a greater percentage of growth if the S&P 500® Index performs well during the option period.

*The premium bonus rate is referred to as the Bonus Interest Percentage in the policy rider. The percentage rate is subject to change at any time prior to policy issue in the discretion of Revol One Financial. The rate declared in the contract will not change. Please contact Revol One Financial for the most up to date terms, conditions and rates.

**Your bonus value also fully vests upon nursing home confinement, terminal illness, death or annuitization under certain terms.

The Impact of a Premium Bonus

The 16%* Premium Bonus is established at purchase, subject to a vesting schedule, and this bonus continues to grow along with your Accumulation Value.

Here's how it works

1

At the start of your contract, a Bonus Accumulation Value equal to 16%* of your initial premium is provided along with your Accumulation Value. This bonus is subject to a 10 Year (9 Year in California) vesting schedule.

2

During the surrender charge period, your contract will have two separate accumulation values: the base Accumulation Value and the Bonus Accumulation Value.

Base Accumulation Value

This value reflects your premium plus any interest crediting based on your allocation choices, less any deductions for partial withdrawals and charges, if any.

Bonus Accumulation Value

This value starts at 16%* of your initial premium and grows proportionately with your base Accumulation Value. If you withdraw part of your base Accumulation Value, the Bonus Accumulation Value will decrease by the same proportion and the reduction in the vested portion of the Bonus Accumulation Value will be paid. Until the bonus is fully vested, the Bonus Accumulation Value will stay at 16%* of your base Accumulation Value.

3

Your Premium Bonus becomes fully vested over 10 years, with a percentage vesting each year after the first. At the end of 10 years, the entire bonus value is added to your base Accumulation Value.**

If you become terminally ill, are confined to a nursing home or die, your bonus will be 100% vested.

Enduris 10 Bonus Vesting Schedule

Beginning of Policy Year	1	2	3	4	5	6	7	8	9	10	11
Vesting %	0%	10%	20%	30%	40%	50%	60%	70%	80%	90%	100%
Vesting % (CA Only)	10%	20%	30%	40%	50%	60%	70%	80%	90%	100%	N/A

*The premium bonus rate is referred to as the Bonus Interest Percentage in the policy rider. The percentage rate is subject to change at any time prior to policy issue in the discretion of Revol One Financial. The rate declared in the contract will not change. Please contact Revol One Financial for the most up to date terms, conditions and rates.

**CA Only: The Premium Bonus becomes fully vested over 9 years, with a percentage vesting each year, effective at contract issue. At the start of year 10, the entire Bonus Accumulation Value is added to your base Accumulation Value.

Allocating Your Premium Dollars

With a Fixed Index Annuity, your initial premium can be allocated, in any combination, to the Fixed Interest Account or any of the S&P 500® Indexed Interest Options available with Enduris.

Fixed Interest Account

The Enduris 10 Bonus Fixed Interest Account earns interest daily at a fixed interest rate set at issue and is guaranteed for 1 year. A new fixed interest rate will be declared for each subsequent guarantee period and will apply to the amount allocated to the Fixed Interest Account as of the beginning of that guarantee period.

Indexed Interest Options

These strategies utilize a formula linked to one or more published indices. When the underlying index goes up in value (based on the starting point to the end point of the option period), the funds in the indexed interest options are credited on a portion of that growth, subject to participation rates and cap rates. If the index falls over the full option period, nothing is credited. Because the principal is protected from market volatility, interest crediting will never be less than zero due to index declines.

Indexed Interest Options available with Enduris FIA

- S&P 500® 1 Year Point-to-Point with Participation Rate
- S&P 500® 2 Year Point-to-Point with Participation Rate
- S&P 500® 1 Year Point-to-Point with Enhanced Participation Rate (EPAR)
- S&P 500® 2 Year Point-to-Point with Enhanced Participation Rate (EPAR)
- S&P 500® 1 Year Point-to-Point with CAP Rate
- S&P 500® 2 Year Point-to-Point with CAP Rate

Understanding how CAPS and PARS impact indexed interest crediting

Point-to-Point is the duration period used to determine index performance.

A CAP rate is the maximum percent limit (or Cap) that can be used to credit interest to your Accumulation Value.

Example: You place \$100,000 in an index interest option with a 10% CAP rate. If the underlying index grows by 20% during the defined credit period, your Accumulation Value will be credited 10%, or \$10,000. If the underlying index grows by 9%, your Accumulation Value will be credited 9% or \$9,000.

The Participation Rate, or PAR Rate, is a percentage of the index return that is credited to your Accumulation Value.

Example: You place \$100,000 in an index interest option with a PAR rate of 50%. If the underlying index rises by 30% during the defined crediting period, your Accumulation Value will be credited 15% (50% of the 30%) or \$15,000.

Understanding How EPAR Indexed Interest Options Work

If you choose to allocate funds to one of the Enhanced Participation (EPAR) Indexed Interest Options, you may be able to capture a higher percentage of growth should the S&P 500® perform strongly during the option period.

Here's How it Works

With an EPAR strategy, there are two participation rates:

1

The Initial Participation Rate

applies to index growth up to a designated rate (called the Index Term Change Percentage)

2

The Enhanced Participation Rate

applies to any index growth above the Index Term Change Percentage

Example

If the underlying index increases by 20% in this option period, the Index Term Change Percentage is 10%, the initial Participation Rate is 20%, and the Enhanced Participation Rate is 100%, the EPAR interest crediting percentage will be 12%.

$$(20\% \text{ PAR}) (10\% \text{ Initial Gains}) + (100\% \text{ PAR}) (10\% \text{ Additional Gains}) = 12\%$$

This example is hypothetical and for illustrative purposes only. It does not reflect the outcome of any actual person. Individual results may vary.

**EPAR Indexed Interest Options Perform Better When
the Underlying Index Experiences Higher Returns**

Access to Your Money When You Need it Most

Should something unexpected happen, there are multiple ways to access your funds without triggering a Surrender Charge or MVA, including:

- IRS Required Minimum Distributions (RMDs)
- If you require nursing home care or become terminally ill (See Enduris 10 Bonus Product Highlights page for more details.)
- Free partial withdrawal of 10% of your account value may be withdrawn each policy year, after your first policy year
- Death Benefit amounts paid to your beneficiary
- Conversion of your annuity into a guaranteed income stream (Please review the Product Highlights page for additional information on annuitization options.)

Talk with your financial professional today to determine if the Enduris 10 Bonus FIA might be right for you.

Surrender Charges

If, before the Surrender Charge period ends, you surrender your annuity or take withdrawals in excess of the Free Partial Withdrawal amount, a Surrender Charge may apply and reduce the amount you receive.

Surrender Charge Schedule

Policy Year	1	2	3	4	5	6	7	8	9	10	11+
Charge Percent	9.0%	9.0%	8.0%	7.0%	6.0%	5.0%	4.0%	3.0%	2.0%	1.0%	0%
Charge Percent (CA Only)	8.3%	8.2%	7.2%	6.2%	5.2%	4.1%	3.1%	2.1%	1.0%	1.0%*	0%

*In Contract Year 10, the Surrender Charge Percentage will stay the same for the first two months as shown in the table above, then decrease by 0.10%, reaching 0% by month 12. No Surrender Charges will apply beyond Contract Year 10.

State variations may apply. There are no Surrender Charges during the first 30 days beginning immediately at the end of the Initial Guarantee Period or any subsequent Guarantee Periods.

Market Value Adjustment (MVA)

The Enduris 10 Bonus FIA comes with a Market Value Adjustment. The MVA applies only when the Surrender Charge applies. The MVA could increase or decrease the amount you receive from Surrender or a withdrawal in excess of the free amount, depending on certain market interest rates. (Please review your contract for complete details.)

- If certain interest rates decrease, the MVA will be positive. **A positive MVA generally increases the withdrawal amount or Cash Surrender Value.**
- If certain interest rates increase, the MVA will be negative. **A negative MVA generally decreases the withdrawal amount or Cash Surrender Value.**
- The Cash Surrender Value will never be less than the Guaranteed Minimum Cash Surrender Value.

When to Consider Enduris 10 Bonus FIA

Seeking an opportunity to boost the account's accumulation value

The Enduris 10 Bonus immediately provides a bonus equal to 16%* of your premium, subject to a vesting schedule. As your Accumulation Value increases, the bonus value will also increase, staying at 16%* of your Accumulation Value until vested. There is no fee for the Premium Bonus.

Looking for tax deferred growth

100% of your Accumulation Value grows tax deferred; taxes on growth are not paid until you withdraw your funds.

Considering leaving a legacy for loved ones

The death benefit equals the base Accumulation Value at the time of death PLUS the fully vested Bonus Accumulation Value.

Wanting a stable income stream in the future

You can convert your annuity into a guaranteed income stream, in some instances as early as the 4th contract year.

Wanting to capture a greater percentage of growth if the S&P 500® performs well during the option period the Enduris 10 Income FIA

If you elect to allocate funds into one of the Enhanced Participation (EPAR) Indexed Interest Options, you may be able to capture a greater percentage of growth if the S&P 500® performs well during the option period.

Relying on principal protection

Your initial principal and interest credits are protected from market fluctuations.

*The premium bonus rate is referred to as the Bonus Interest Percentage in the policy rider. The percentage rate is subject to change at any time prior to policy issue in the discretion of Revol One Financial. The rate declared in the contract will not change. Please contact Revol One Financial for the most up to date terms, conditions and rates.

Important Information

⁽¹⁾**The Free Partial Withdrawal Amount** is equal to the Free Partial Surrender Percentage times the Accumulation Value at the beginning of the Contract Year, less any prior partial surrenders (including any associated surrender charges and MVA) made during the Contract Year. Prior partial surrenders include any IRS required minimum distributions and are free of surrender charges. If you withdraw an amount more than this Free Partial Withdrawal Amount, you may be subject to Surrender Charges. Withdrawals of taxable amounts are subject to ordinary income tax and may be subject to a 10% federal income tax penalty if taken before age 59½.

⁽²⁾**The terminal illness and nursing home confinement benefits, and the Terminal Illness and Nursing Home Riders, are NOT long term care insurance or a substitute for such coverage.** These benefits may not be available in all states. Please contact Revol One Financial for more information, including requirements for the Nursing Home and Terminal illness Riders.

⁽³⁾**Additional information about the Nursing Home Rider:** First confinement must begin on or after the Contract Date. We must receive the withdrawal request and proof satisfactory to us at our Home Office either while the Owner is confined or within 90 days after such confinement. Confinement in a Nursing Home must be prescribed by a Qualified Physician and must be Medically Necessary. The Owner must have been the Owner of the contract continuously since the Contract Date, or a spousal Beneficiary who continued the Contract under the Settlement Options in the Contract. State variations may apply. Please read your Contract for details.

⁽⁴⁾**Additional information about the Terminal Illness Rider:** A Qualified Physician must certify to the Owner's illness or injury and life expectancy, and that the Owner had not been diagnosed with the terminal condition as of the Contract Date. The Owner must have been the Owner of the contract continuously since the Contract Date or a spousal Beneficiary who continued the Contract under the Settlement Options in the contract. State variations may apply. Please read your Contract for details.
