FOR FINANCIAL PROFESSIONAL USE ONLY. NOT FOR USE WITH THE GENERAL PUBLIC.

*The Best Entry Rider applies only to the first index option period following policy issue. It does not apply to any period thereafter. It also does not apply to the Fixed Interest Option. Contact Revol One Financial for more details.

**6 Year Guaranteed CAP: Available only on the 1-Year Point-to-Point with 6 Year Guaranteed CAP Rate Indexed Interest Option, the CAP rate stays fixed during the 6 Year surrender period, which includes 6 one-year crediting periods. Afterward, it may change for future crediting periods. Funds can be allocated to this option only at Contract Issue, with no transfers or reallocations in or out allowed during the surrender period. Rates are subject to change at any time prior to Contract Issue. Please contact Revol One Financial or visit RevolOneFinancial.com for the most up to date terms, conditions and rates.

***There currently is no fee charged for the Interest Bonus Rider. If Revol One Financial elects to begin charging a fee for the Interest Bonus Rider, it will be charged at the beginning of each year and will be included in the contract schedule. Please contact Revol One Financial for the most up to date terms and conditions. While certain features, such as the premium bonus, have no explicit cost, a product with certain built-in features may offer higher or lower parameters on applicable index options, such as cap and participation rates, than products that do not have these features. Over time, the amount of the bonus or other features may be offset by these different parameters.

****A lifetime income stream assumes no excess withdrawals. GLWB income payments will end if an excess withdrawal reduces the Accumulation Value to zero. Excess withdrawals may also reduce the income payments in an amount more than the withdrawal. Excess withdrawals are subject to surrender charges and MVA. The GLWB Rider, if elected, is included on the date of issue for an annual charge of 1.25% of the Benefit Base on each rider anniversary date. It is collected from the Accumulation Value. The Benefit Base is a separate value used to determine the amount of the GLWB income payment and is not available for cash surrender or as a death benefit. The charge will also apply to the amount of any withdrawals during the deferral phase and any excess withdrawals after income is activated. The GLWB income payments may increase annually by the Annual Growth Rate ("AGR"). The AGR is determined based on the allocation among and performance of index interest options and the fixed interest account. Growth of the indexed interest options is not guaranteed. The fixed interest rate is declared in the contract and applies only to allocations to the fixed interest account.
