Important Information

Not FDIC/NCUA Insured * May Lose Value * Not Bank/CU Guaranteed * Not A Deposit * Not Insured By Any Federal Government Agency

(1)CDs and MYGAs are different products serving different financial objectives. CDs are bank or credit union deposit products generally insured by the FDIC or NCUA up to applicable limits. MYGAs are insurance products backed by the claims-paying ability of the issuing insurance company and are not FDIC or NCUA insured. Consumers should review the features of each product and consult a financial professional to determine which best aligns with their financial goals.

(2)Tax treatment is based on Revol One Financial's current understanding of tax law and the structure of the Contract. There is no IRS private letter ruling stating that the BreakThrough Annuity Account MYGA is not subject to the IRS 10% early withdrawal penalty. You should consult a qualified tax advisor prior to purchasing BreakThrough Annuity Account MYGA.

(3)Your guaranteed fixed interest rate will vary depending on the Riders(s) you select, if any. Please review the rate sheet for more details.

(4)Best Interest Crediting, if any, is based on a comparison of the S&P 500® index value at the start of the crediting period to the index value at the end of the period. The percentage change, if positive, is multiplied by the applicable participation rate. The resulting value is then compared against a value based on a guaranteed fixed rate to determine the final amount credited to your annuity.

(5)Subject to the terms and conditions of the Index Lock Rider. The Index Lock feature is not available for funds allocated to Fixed, Cap Rate, or Guaranteed Cap Rate Index Strategy options.

(6)AccumRev FIA offers 1 Year Point-to-Point with 5 Year Guaranteed Cap Rate strategy options as well as 1 Year Point-to-Point with 7 Year Guaranteed Cap Rate strategy options. On each strategy option, the Cap Rate is guaranteed to stay fixed for each 1 year crediting period for either a 5 year or 7 year guarantee period as applicable. After the guarantee period (either 5 or 7 years), the Cap Rate is no longer guaranteed and may change for future crediting periods. Reallocation in or out of these options are allowed solely at the end of the initial guarantee period (either 5 or 7 years) or any subsequent guarantee periods, with no transfers or reallocations in or out allowed during each guarantee period.

(7)Annuities with certain features, including a Premium Bonus, may offer higher or lower parameters on applicable index options, such as cap and participation rates, than annuities that do not have these features. Over time, the amount of the bonus or other features may be offset by these different parameters.

(8)This assumes no excess withdrawals. GLWB income payments will end if an excess withdrawal reduces the Accumulation Value to zero. Excess withdrawals may also reduce the income payments in an amount more than the withdrawal. Excess withdrawals are subject to Surrender Charges and MVA.

(9)The potential for increasing income is based on allocation to and performance of index interest options and the fixed interest account. An increase in the index interest option is not guaranteed. The fixed interest rate is declared in the contract.
