# Important Information

## FOR FINANCIAL PROFESSIONAL USE ONLY. NOT FOR USE WITH THE PUBLIC.

<sup>(1)</sup>Your guaranteed fixed interest rate will vary depending on the Riders(s) you select, if any. Please review the rate sheet for more details.

<sup>(2)</sup>Best Interest Crediting, if any, is based on a comparison of the S&P 500® index value at the start of the crediting period to the index value at the end of the period. The percentage change, if positive, is multiplied by the applicable participation rate. The resulting value is then compared against a value based on a guaranteed fixed rate to determine the final amount credited to your annuity.

<sup>(3)</sup>6 Year Guaranteed CAP: Available only on the 1-Year Point-to-Point with 6 Year Guaranteed CAP Rate Indexed Interest Option, the CAP rate stays fixed during the 6 Year surrender period, which includes 6 one-year crediting periods. Afterward, it may change for future crediting periods. Funds can be allocated to this option only at Contract Issue, with no transfers or reallocations in or out allowed during the surrender period. Rates are subject to change at any time prior to Contract Issue.

<sup>(4)</sup>The index value used for determining whether the Best Entry Rider applies and the new starting value will be determined as of market close. The Best Entry Rider applies only to the first Indexed Interest Option crediting period following policy issue. It does not apply to any periods thereafter. It also does not apply to the Fixed Interest Option. The Trigger Rate (currently 10%) and Best Entry Window Period (currently 60 days) are subject to change at any time prior to policy issue. The Trigger Rate and Best Entry Window declared in the Contract will not change.

<sup>(5)</sup>The premium bonus percentage is referred to as the Bonus Interest Percentage in the Interest Bonus Rider. The percentage rate is subject to change at any time prior to policy issue in the discretion of Revol One Financial. The rate declared in the contract will not change. There currently is no fee for the Interest Bonus Rider. If Revol One Financial elects to begin charging a fee, it will be charged at the beginning of each contract year and will be included in the contract schedule. Please contact Revol One Financial for the most up to date terms, conditions and rates. While certain features, such as the premium bonus, have no explicit cost, a product with certain built-in features may offer higher or lower parameters on applicable index options, such as cap and participation rates, than products that do not have these features. Over time, the amount of the bonus or other features may be offset by these different parameters.

<sup>(6)</sup>This assumes no excess withdrawals. GLWB income payments will end if an excess withdrawal reduces the Accumulation Value to zero. Excess withdrawals may also reduce the income payments in an amount more than the withdrawal. Excess withdrawals are subject to Surrender Charges and MVA.

<sup>(7)</sup>The potential for increasing income is based on allocation to and performance of index interest options and the fixed interest account. An increase in the index interest option is not guaranteed. The fixed interest rate is declared in the contract.
